Allegion helps keep people safe where they live, work and visit. As a leading provider of security products and solutions for homes and businesses, Allegion specializes in security around the doorway and beyond: everything from residential and commercial locks, door closers and exit devices, steel doors and frames to access control and workforce productivity systems. Allegion is a \$2 billion business offering products in more than 120 countries across the world.

Allegion's portfolio includes strategic brands CISA, Interflex, LCN, Schlage and Von Duprin; and other brands including aptiQ, Briton, Bricard, Dalco, Dexter by Schlage, Falcon, Fusion Hardware Group, Glynn-Johnson, ITO Kilit, Ives, Kryptonite, Legge, Martin Roberts, Normbau, Randi, Steelcraft and XceedID.

Pioneering safety

The brands that make up Allegion began by solving problems in new ways and have remained trailblazers in the decades since. A proud heir to that tradition, Allegion believes that those who stay focused on the future will always find new ground to break.

VON DUPRIN

Invented the exit device or “panic release” bar and awarded the first exit device patent in 1909

Established in 1920 and awarded the first patents granted for the cylindrical lock and the push button lock

LCN

Established in 1926 and created the door closer in response to a request by Boston's Trinity Church

STEELCRAFT

Established in 1927 and developed the first mass-produced hollow metal door in 1942

We are many. We are one. We are Allegion.

Allegion serves the security needs of many markets including college, K-12, healthcare, government, commercial real estate, and single and multi-family residential properties.

What we do is far from ordinary. People depend on our products and solutions to work seamlessly at critical moments and function effortlessly in daily use. This responsibility is paramount to our employees, who are wholly dedicated to the millions of people who depend on us to keep them safe and secure.

It's the knowledge, skills and experience of our people first — followed by the quality and reliability of our products — that sets us apart. We don't just provide products, we solve problems. We partner with our commercial and residential customers to help them navigate their toughest security challenges, and we help builders and property owners differentiate themselves by providing innovative and secure solutions. Our trained specification writers and experts not only help our customers adhere to codes and standards — we help advocate for and raise those security standards in the first place in markets across the globe.
