New, ADA Thumbturn as standard offering on Schlage L Series Mortise Locks

Effective December 9, 2019, Schlage L Series mortise locks requiring a thumbturn will ship standard with our **new ADA thumbturn**. The new ADA thumbturn is slightly smaller than the existing ADA design while still meeting ADA requirements. Customers wishing to order the existing standard non-ADA thumbturn or larger ADA thumbturn, will be required to specify this requirement on their order.

New ADA Thumb Turn
09-544 (now standard)

Large ADA Thumb Turn
09-509 x L583-363

Basic Thumb Turn
09-509 (Must be Specified)

New ADA Thumb Turn on L Series N
Escutcheon Trim. See details below
for part numbers.

Exceptions to this new standard include the following:

Satin Bronze Finish (612)	Customers ordering an L Series lock requiring a thumbturn in 612 or 613 finishes will receive the larger ADA thumbturn (09-509 x L583-363) as standard. The new ADA thumbturn <u>is not</u> available in 612 or 613.
Oil Rubbed Bronze Finish (613)	
Sectional Trim – Thick Doors <ul style="list-style-type: none"> ▪ Greater than 3-3/4" Extended Equally (EE) ▪ Greater than 2-1/2" Extended Internally (EI) Escutcheon Trim – Thick Doors <ul style="list-style-type: none"> ▪ L Esc.: Greater than 3-1/4" Extended Equally (EE) ▪ L&N Esc.: Greater than 2" Extended Internally (EI) 	Customers ordering an L Series lock and specifying stated door thicknesses in this table, will receive the larger ADA thumbturn (09-509 x L583-363) as standard.

The new ADA thumbturn is also available to upgrade existing locks in the field. The following part numbers would be used to order the full assembly.
